

武汉理工大学

WUHAN UNIVERSITY OF TECHNOLOGY

would like to invite **3-4 Doctoral students** (Candidates) to pursue the doctor degree and **3-4 Master students** (Candidates) to pursue the Master degree in our University

Wuhan University of Technology Research Fields:

- **Wind Energy System for Electric Power Generation;** Wind Power Generation and Complex Networks; Wind Power Generation and Power System; Control of Wind Farms and Wind Turbine, Large Wind Turbine Tower and its Structure.
(Total Project Funding: CNY 1000,000)
- **Shore power supply system (AMP);** Shore Power Technology Research and Application in Port; Onshore Power Supply (OPS), Shore-Side Electricity, Shore Connected Electricity Supply; Shore Power; High Voltage Shore Connection (HVSC), Ship-to shore; Alternative Maritime Power (AMP).
(Total Project Funding: CNY 3000,000)
- **Solar/wind power generation and grid-connected systems technologies,** Solar-wind hybrid power generation technology and its application, Solar photovoltaic power generation system.
(Total Project Funding: CNY 1000,000)
- **Multi-agent systems and Control;** Cooperative Control for Multi-Agent Systems.
(Total Project Funding: CNY 1000,000)
- **Control and Synchronization on Complex Dynamical Networks;** Complex Dynamical Networks.
(Total Project Funding: CNY 1000,000)
- **Port logistics management;** Multimodal Transport.
(Total Project Funding: CNY 50,000)

Candidates are welcome if they have the background on **Electrical Engineering, or Automation, or Mechanical Engineering, or Computer Science, or Applied Mathematics.**

Communications skills- develop the ability to organize and present information and to write and speak effective English.

- **ALL COST AND FEE ARE FUNDED BY FULL SCHOLARSHIP- CHINESE GOVERNMENT SCHOLARSHIPS PROGRAMS**
- **FULL SCHOLARSHIP COVERS: TUITION WAIVER, ACCOMMODATION, COMPREHENSIVE MEDICAL INSURANCE, ETC.**

For more information contact:

Prof. Dr. Lin Pan

School of Logistics Engineering,

Wuhan University of Technology, Wuhan 430063, China
